

ABBVIE: GENDER PAY GAP REPORT 2022

At AbbVie, we are committed to building talent and we strive to ensure that all colleagues reach their full potential. As a global organisation, we continuously benchmark our total rewards practices internally and externally to ensure fairness and equality.

We believe that Gender Pay Gap reporting is important as it provides an opportunity for greater transparency and more meaningful conversations regarding equality across the organisation.

WHAT IS ABBVIE'S GENDER PAY GAP?

		MEDIAN (middle)	MEAN (average)
GENDER PAY GAP	2022	17.55%	19.72%
GENDER BONUS GAP	2022	27.73%	26.25%

IN FAVOUR OF MEN.

HOW IS THE GENDER PAY GAP CALCULATED?

Mean and median pay and quartile pay bands are based on data from April 2022 calculating ordinary pay and bonus pay. Companies need to provide a report on both and there is specific guidance from government on what is in scope:

ORDINARY PAY includes salary plus other types of pay such as allowances and long service awards. Car allowances are included in this calculation, but company fleet vehicles are not.

BONUS PAY includes any additional pay outside of the above, for example annual bonus, sales commission and Long-Term Incentives.

% OF MEN AND OF WOMEN WHO RECEIVED A BONUS

	MEN	WOMEN
2022	94.22%	92.70%

THE DIFFERENCE IN BONUS PAY

We are proud that every colleague at AbbVie is eligible to receive a bonus each year and we are pleased to see a continued high proportion of both female and male employees receiving bonus.

Our reward practices are related to achievement against targets and are aligned with a scaled bonus plan based on seniority of role.

Our demographic with more women than men in the lower paid quartiles creates a gap.

UNDERSTANDING THE GAP

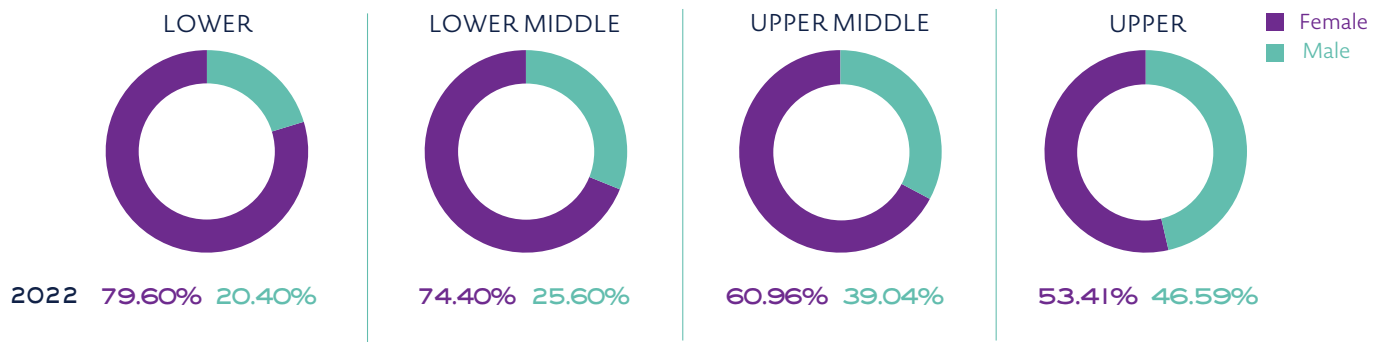

As this is the first year we are reporting as a new combined company, we are pleased to see the gap has remained the same as last year. As in previous years, there are more women at every level of the organisation. The shortage of male employees at the lower levels remains a key driver to AbbVie's pay gap.

Women are more strongly represented in the lower pay quartile (M 20.4% and F 79.6%). The high proportion of women in the lower pay quartile delivers a gap under the official Gender Pay Reporting methodology.

67%

OF ABBVIE'S UK WORKFORCE ARE FEMALE

WHAT IS THE GENDER SPLIT AT EACH QUARTER OF ABBVIE'S PAYROLL?

At every level of the organisation, AbbVie has more women than men.

“GENDER PAY GAP” REPORTING AND “EQUAL PAY” REFER TO TWO DISTINCT ISSUES:

- GENDER PAY GAP** is the difference in average (mean and median) pay of men and women, regardless of role, across an organisation. From April 2017 it became a legal requirement for UK employers with more than 250 staff to publish this data annually. It is expressed as a percentage difference between the mean or median figures for each gender.
- EQUAL PAY** means that men and women in the same employment performing equal work must receive equal pay. It is a legal requirement as set out in the Equality Act 2010.

OUR COMMITMENTS

AbbVie is committed to equality of opportunity in all areas of its work. All individuals will be treated in a fair and equal manner and in accordance with the law regardless of gender, marital status, race, religion, colour, age, disability or sexual orientation.

We are confident that any variation in pay across genders at AbbVie is based on the distribution of our demographic rather than any underlying issues regarding equal pay. We are committed to continuing to actively monitor and manage our payment practices to ensure that this remains fair and equitable by:

- CONTINUING TO MONITOR OUR ANNUAL REWARD PROCESS TO ENSURE IT REMAINS BIAS-FREE
- TALKING ABOUT GENDER PAY OPENLY AND TRANSPARENTLY, WHILE CONTINUING TO REVIEW AND BENCHMARK OUR PEOPLE PRACTICES ENSURING SYSTEMIC INTEGRITY

The data contained in this gender pay gap report is calculated based on a snap-shot of our UK payroll employees on 5 April 2022. It includes analyses required by HM Government and further analyses we have undertaken to better understand the issue.

TODD MANNING,
UK General Manager
